WORK EXPERIENCE

Front End Engineer Intern

May 2022 - present

During the initial phase of my internship, I adeptly engineered a comprehensive e-commerce website, named Bazar, utilizing React.js, Node.js, and MongoDB. This project served as a testament to my expertise in front-end development while enabling me to exhibit my aptitude in crafting interactive and intuitive user interfaces. URL: - <https://bazar-app-front-end.vercel.app> Contributed significantly to the successful development of an e-commerce website, subsequently transitioning to an internal project, where I excelled as a front-end developer, showcasing expertise in React.js, Redux, Material-UI, and React Query. My contributions to the internal project provided me with hands-on experience in designing and implementing scalable and efficient solutions. I collaborated closely with the development team, effectively communicating ideas and actively participating in the agile development process. Overall, my internship experience allowed me to strengthen my technical skills and provided me with a solid foundation in building robust and intuitive web applications.
